

A NEW NAME.

STEEL TRUST
C O R P O R A T I O N

POWERed by 50 Years of Solid Steel Experience

OUR MISSION

To continuously adapt to the emerging needs of the Philippine steel market, by providing our customers with highly competitive prices, top quality steel products, and the most efficient customer service.

OUR VISION

To become the leading and most reliable steel supplier in the country, and in the process, becoming the preferred one-stop shop for a full range of steel products and services.

GIVING BACK

Concern for the economic well-being of its community has been one of the company's thrusts since its relocation in the area in 1977. As a way of giving back, a portion of the company's profits is being channeled back through the following regular projects in Barangay Bungad, Quezon City:

- 1. College scholarship grants for graduating students of Judge Juan Luna High School.*
- 2. Constant improvement of facilities in Bungad Elementary School.*
- 3. Annual medical and dental missions.*
- 4. "Project Merry Christmas" for 500 families located in the barangay.*
- 5. Co-funding and constant support for the Sto. Cristo Foundation livelihood projects.*

COMPANY Information

AN OVERVIEW

The company started its operations way back in 1955 as a humble hardware store along Juan Luna St. in Tondo, Manila. Throughout the years, it has developed its strength in construction materials trading and has grown into one of the major players in the industry. In 1977, the owners moved into its current 2-hectare plant in San Francisco Del Monte, Quezon City. It was in the 1980's when the company decided to concentrate its business efforts on steel trading.

At present, we are one of the largest importers and wholesalers of a wide range of structural steel products in the country, covering a vast clientele from various industries and handling numerous projects nationwide.

CLIENTELE

We serve all government, private and multinational sectors involved in: construction, shipping, fishing, sugar, oil, mining, automotive, power, communications, and manufacturing.

SUPPLIERS

We regularly import from major steel mills in Asia (China, Taiwan, Japan, Korea, and Thailand) and Russia.

THE MANAGEMENT AND STAFF

We have a dynamic and dedicated team that pledges its commitment to continuously provide you with the same dependable service, uncompromising quality, and most reasonable prices that we have gained reputation for in the past half-century.

FACILITIES

DELIVERY

1. A fleet of 10-wheeler and 6-wheeler delivery trucks.
2. Tie-ups with major trucking and shipping companies nationwide.
